

The PADI AWARE Foundation is a publicly funded non-profit with three registered charities across the globe. Backed by the power of the PADI® brand and supported by the world's largest global network of dive centers and resorts and dive instructors worldwide, PADI AWARE Foundation can fully leverage the collective influence of divers and the dive industry to address key threats facing the marine environment. Working alongside PADI, we drive towards our collective vision to achieve balance between humanity and the ocean.

Our mission to 'Drive local action for global ocean conservation' is carried out through citizen science, public policy, and community grants. For over 30 years, PADI and AWARE have built a truly unique voice for the protection of the underwater world. Together, we have set ambitious ocean conservation targets through a shared Blueprint for Ocean Action that provides the framework to tackle key threats to the ocean and create ocean change in our dive communities around the world.

Do you want to actively contribute to protecting our marine environment? Look no further than [AQUA ONE Dive – PADI 5 Star IDC](#), your gateway to meaningful conservation efforts. We are driving global change through local action. Over a million individuals have already taken AWARE conservation courses. Join them to understand the challenges our oceans face and how you can make a positive impact.

### **Enroll in AWARE Conservation Courses**

Whether you're a diver or non-diver, you can enroll in the PADI AWARE Specialty course to learn the top 10 ways to save the ocean. This and the other PADI AWARE courses empower you to become a more effective ocean advocate. By taking an AWARE conservation course with [AQUA ONE Dive](#), you also contribute to the PADI Blueprint for Ocean Action. This initiative supports the UN Sustainable Development Goals to protect 30% of the ocean by 2030.

### **Dive into Adopt the Blue**

PADI's global network of 6,600 Dive Centers and Resorts and more than 128,000 Professional Members worldwide provide the backbone for the Adopt The Blue program. This initiative aims to accelerate the establishment of Marine Protected Areas (MPAs) for protection and conservation. [AQUA ONE Dive](#) has adopted local sites, and we receive regular reports about the conservation issues facing the site. We will then connect that data to local and global projects, campaigns and grant opportunities.

### **Support 100% AWARE Partners**

The PADI 100% AWARE exclusive partner giving program allows [AQUA ONE Dive](#) to contribute to marine conservation effortlessly through the PADI certification card process. By participating in this exclusive partner giving program, [AQUA ONE Dive](#) directly support the protection of the underwater world and combat the ocean's greatest challenges. As an added bonus, divers who get certified at 100% AWARE dive shops will receive an AWARE certification card.

### **Donations**

You may also may a direct donation here at [AQUA ONE Dive](#). We make contributions and donations to PADI AWARE Foundation through our store account. We make a lump sum donations whenever we are able to raise funds. By participating in this giving program, you can also support the protection of the underwater world and combat the ocean's greatest challenges.
